

MOHD SAQULAIN

AI & Software Engineer | Full-Stack Developer | Python | .NET | React.js | FastAPI | LLMs | LangGraph | LangChain | RAG | AI Agents

Gurugram, Haryana, India | +91 7982316748 | mohammadsaqulain18@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with 4+ years of professional experience in backend and full-stack development, with a strong foundation in C#, .NET, Web APIs, SQL Server, and enterprise application development. Hands-on experience building AI-powered applications and intelligent automation workflows using Python, FastAPI, LLMs, LangChain, LangGraph, RAG, and AI agents. Experienced in API-driven systems, data pipelines, third-party integrations, reporting platforms, ETL workflows, and automation. Worked with Amazon Ads, Google Ads, Meta Ads, and Shopify integrations across campaign management, reporting, analytics, OAuth, caching, and data processing.

PROFESSIONAL EXPERIENCE

Professional Product Developer — Gainwell Technologies | Bengaluru, India | May 2022 – September 2026

- Developed and maintained enterprise applications for the US healthcare domain using C#, .NET, ASP.NET MVC, Web API, WCF, Angular, JavaScript, and SQL Server.
- Worked across the software development lifecycle including development, testing, debugging, documentation, and production support.
- Developed backend services and APIs for retrieving, validating, and processing application data from multiple sources.
- Built and enhanced web-based interfaces using Angular, JavaScript, CSHTML, HTML, CSS, JSON, XML, and WSDL.
- Worked with SQL Server to retrieve and manipulate application data and develop database functions and triggers.
- Applied Object-Oriented Programming, CQRS, IoC, and Dependency Injection in enterprise applications.
- Collaborated with business analysts, testers, and developers in an Agile environment using Git/GitHub and Team Foundation Server.
- Used GitHub Copilot to accelerate complex, time-consuming development tasks, helping improve delivery speed and complete assigned work ahead of planned timelines.

Software Developer Intern — Cargoflash Pvt. Ltd. | Gurgaon, India | Mar 2021 – Oct 2021

- Designed and developed .NET-based applications and web interfaces using Angular.

Full Stack Developer Intern — Websjyoti | Gurgaon, India | Jun 2018 – Aug 2018

- Worked on web application development using PHP, JavaScript, Bootstrap, and CSS; contributed code to live projects.

AI & SOFTWARE ENGINEERING EXPERIENCE

AI / LLM Engineering: Developed AI-powered applications using Python and modern LLM technologies; built agentic workflows with LangGraph and LangChain; worked with RAG, AI agents, FastAPI, LLM APIs, and local LLM deployment concepts using llama.cpp and GGUF models.

Advertising & Marketing Technology: Developed integrations with Amazon Ads, Google Ads, and Meta Ads APIs; worked on campaign management, reporting, targeting, budgets, OAuth workflows, API rate-limit handling, Redis caching, ETL pipelines, and PostgreSQL analytics.

E-commerce & Integrations: Worked with Shopify GraphQL APIs and data transformation pipelines for orders, line items, checkouts, products, and related commerce data.

TECHNICAL SKILLS

Programming: C#, Python, JavaScript, PHP, SQL

Backend & APIs: .NET, ASP.NET MVC, Web API, WCF, FastAPI, REST APIs

Frontend: React.js, Angular, JavaScript, HTML, CSS, CSHTML, Bootstrap, jQuery

AI: LLMs, LangChain, LangGraph, RAG, AI Agents, Prompt Engineering, llama.cpp

Databases: SQL Server, PostgreSQL, MySQL

Infrastructure: Azure DevOps, Docker, Kubernetes, Redis

Platforms: Amazon Ads API, Google Ads API, Meta Marketing API, Shopify GraphQL

Concepts: OOP, CQRS, IoC, Dependency Injection, OAuth, ETL, Agile

PROJECTS

Nucleus — AI-Powered Advertising Analytics & Campaign Management Platform

Python | FastAPI | LangGraph | LLMs | PostgreSQL | Redis | Amazon Ads | Google Ads | Meta Ads

- Developed an advertising analytics platform integrating multiple advertising channels.
- Built pipelines to collect, transform, normalize, and store advertising performance data.
- Developed reporting workflows for ad spend, revenue, ROAS, CPA, CTR, and other advertising KPIs.
- Integrated Amazon Ads, Google Ads, and Meta Ads APIs for campaign management and reporting.
- Implemented Redis caching and API rate-limit handling.
- Developed AI-agent workflows using LangGraph and LLMs to analyze historical advertising performance and generate actionable insights.
- Worked on campaign workflows including campaigns, ad groups/ad sets, ads, targeting, budgets, and reporting.

OTHER PROJECTS

Eye Doctor — Android Studio

- Developed an application with an ophthalmologist to help patients perform eye exercises through videos and interactive activities.

Biryani Khansama — PHP | MySQL | JavaScript | Bootstrap | CSS | HTML

- Developed an e-commerce food ordering website allowing customers to browse and order food online.

EDUCATION

Bachelor of Technology — Computer Science | Sushant University, Gurgaon, Haryana | 2017 – 2021

CERTIFICATIONS

- Problem Solving (Intermediate) — HackerRank, 2023
- C# (Basic) — HackerRank, 2023
- Problem Solving (Basic) — HackerRank, 2023
- Git / GitHub — MindLuster, 2023
